

**Media Statement – COVID-19 Outbreak at Bow Crest Long Term Care Home – Calgary  
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

August 30, 2021

Alberta Health Services (AHS) declared an outbreak of COVID-19 at Bow Crest Long Term Care Home in Calgary on August 28 after one staff member tested positive for COVID-19. The staff member is in self-isolation at home. At the direction of public health, all residents and staff in the affected area will be tested.

We are working very closely with Public Health officials and are following strict pandemic outbreak protocols and infection control practices. All residents are monitored twice daily for symptoms.

All staff are screened at the beginning of their shifts and are being cohorted to work in assigned resident areas. All staff are required to wear an appropriate mask and eye protection in the home.

Enhanced cleaning is being done at Bow Crest. We frequently disinfect high touch surfaces like handrails and doors, common areas and staff rooms.

All Bow Crest residents who consented to and are able to be vaccinated have now received both doses. Vaccinations for staff are underway.

We have informed the residents, their families and the staff of the status of the outbreak.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
