

**Media Statement – COVID-19 Outbreak at Grand Wood Park Retirement Residence – London  
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

August 13, 2021

On August 13, Middlesex-London Public Health declared an outbreak at Grand Wood Park retirement residence after two residents tested positive for COVID-19. Residents and staff members are being tested in consultation with Middlesex-London Public Health.

We are working closely with Middlesex-London Public Health officials to implement pandemic outbreak protocols and infection control practices. Residents on the affected floor are isolated in their rooms and monitored for symptoms twice daily. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Grand Wood Park, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

All of the residents of Grand Wood Park who are able to be vaccinated have received their second dose and most are fully vaccinated. Almost all of the staff have also been fully vaccinated.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
