

**Media Statement – Outbreak at Inglewood Retirement Residence – Red Deer
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

August 22, 2021

On August 22, Alberta Health Services (AHS) declared an outbreak at Inglewood retirement residence after one staff member tested positive for COVID-19. Residents and staff members are being tested in consultation with AHS.

We are working closely with AHS officials to implement pandemic outbreak protocols and infection control practices. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Inglewood, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

Most residents who are eligible are fully vaccinated for COVID-19 and a large majority of staff are also vaccinated with second shots ongoing.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
