

**Media Statement – COVID-19 Outbreak at Granite Landing Retirement Residence –
Cambridge**

- Dr. Rhonda Collins, Chief Medical Officer, Revera

December 19, 2020

On December 18, Waterloo Public Health declared an outbreak at Granite Landing retirement residence after one third-party care provider tested positive for COVID-19. The care provider is in self-isolation at home. Residents and staff members are being tested in consultation with Waterloo Public Health.

We are working closely with Waterloo Public Health officials to implement pandemic outbreak protocols and infection control practices. Residents on affected floors are isolated in their rooms and monitored for symptoms twice daily. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Granite Landing, disinfecting high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms frequently.

To promote physical distancing, isolated residents are being served meals in their rooms. Group recreation programming has been replaced by one-on-one activities with residents for social engagement.

We have informed residents, their families and the staff of the status of the outbreak. Visits have been cancelled during the outbreak, except for essential caregivers. We appreciate the patience and understanding of our residents and their families as we take these precautions. After the outbreak is resolved, we will notify families as soon as we are able to resume visits.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
