

**Media Statement – COVID-19 Update on Greenway Retirement Residence – Brampton
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

December 22, 2020

Public Health Authority declared an outbreak of COVID-19 at Greenway Retirement Residence in Brampton on December 16 after two residents and one staff member tested positive for COVID-19. Residents and staff members are being tested in consultation with Peel Public Health.

On December 18, two additional staff tested positive for COVID-19. All three staff members are in self-isolation at home.

We are working closely with Peel Public Health officials to implement pandemic outbreak protocols and infection control practices. Residents on two floors are isolated in their rooms and monitored for symptoms twice daily.

All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Greenway, disinfecting high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms frequently. To promote physical distancing, isolated residents are being served meals in their rooms.

Group recreation programming has been replaced by one-on-one activities with residents for social engagement. We have informed residents, their families and the staff of the status of the outbreak.

Visits have been cancelled during the outbreak, except for essential visitors.

We appreciate the patience and understanding of our residents and their families as we take these precautions. After the outbreak is resolved, we will notify families as soon as we are able to resume visits.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
