

**Media Statement – COVID-19 Outbreak at Fleetwood Villa Retirement Residence – Surrey
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

February 22, 2021

On February 16, Fraser Health Authority declared an outbreak at Fleetwood Villa retirement residence after three residents tested positive for COVID-19. The residents are in isolation in their suites.

We are working closely with Fraser Health Authority officials and have implemented pandemic outbreak protocols and infection control practices. Residents are isolated in their rooms and monitored for symptoms twice daily. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Fleetwood Villa, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

To promote physical distancing, residents are being served meals in their rooms. Group recreation programming has been replaced by one-on-one activities with residents for social engagement.

We have informed residents, their families and the staff of the status of the outbreak. Visits have been cancelled during the outbreak, except for essential caregivers. We appreciate the patience and understanding of our residents and their families as we take these precautions. After the outbreak is resolved, we will notify families as soon as we are able to resume visits.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
