

**Media Statement – COVID-19 Outbreak at Sara Vista Long Term Care Home – Elmvale
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

February 20, 2021

Simcoe Muskoka District Public Health declared an outbreak of COVID-19 at Sara Vista Long Term Care Home in Elmvale on February 19 after one staff member tested positive for COVID-19. The staff member is in self-isolation at home. All residents and staff will be swabbed at the direction of Public Health.

We are working very closely with Public Health officials and are following strict pandemic outbreak protocols and infection control practices. All residents are monitored twice daily for symptoms.

All staff are screened at the beginning and end of their shifts and are being cohorted to work in assigned resident areas. All staff are required to wear an appropriate mask and eye protection in the home.

Enhanced cleaning is being done at Sara Vista. We frequently disinfect high touch surfaces like handrails and doors, common areas and staff rooms.

At the direction of Simcoe Muskoka District Public Health, all residents are to remain in their rooms at all times. Individual recreation activities will be continued to maintain social engagement during this period of isolation.

We have informed the residents, their families and the staff of the status of the outbreak. At the direction of Public Health, all indoor and outdoor visits are cancelled temporarily. Visits from essential caregivers and essential visits for palliative residents will be permitted.

All Sara Vista residents and staff, who have provided consent and are able to be vaccinated, have now received both doses, with the exception of one resident who is awaiting their second dose.

We recognize how difficult these measures are for residents and their families. We appreciate the patience and understanding of families as we put these precautions in place for the safety of the residents.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
