

**Media Statement – Update on Outbreak at Hillside Manor Long Term Care Home – Stratford  
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

January 2, 2021

Huron Perth Public Health has confirmed that there have been no additional cases of COVID-19 at Hillside Manor Long Term Care Home in Stratford since the outbreak was declared on December 23 after one staff member tested positive for COVID-19 as part of ongoing staff surveillance testing. This single staff case has resolved.

We are working closely with Public Health officials and are maintaining pandemic outbreak protocols and infection control practices. We are doing enhanced cleaning at Hillside Manor, frequently disinfecting high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms.

All residents are monitored closely for symptoms twice daily and are tested if they present any potential signs or symptoms of the virus.

Staff are screened at the beginning and end of their shifts. All staff are required to wear an appropriate mask and eye protection while in the home.

We are regularly updating residents, their families and staff on the status of the outbreak. At the direction of Public Health, visits are restricted to essential caregivers and essential visits for palliative residents.

We recognize how difficult these measures are for residents and their families and we appreciate their patience and understanding as we put these precautions in place for the safety of our residents.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
