

**Media Statement – Update on outbreak at Jasper Place Long Term Care Home – Edmonton
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

January 12, 2021

Alberta Health Services (AHS) has confirmed that 17 residents of Jasper Place Long Term Care Home have tested positive for COVID-19 since the outbreak began on October 23, 2020. 11 of these resident cases have resolved. We regret to confirm that three residents have passed away with COVID-19 during this outbreak. The Jasper Place team offers their most sincere condolences to the families and friends of the residents we have lost to the pandemic.

AHS also confirmed since the outbreak began, 28 staff have tested positive for COVID-19. 24 of these staff cases have resolved. The remaining staff members with active cases of COVID-19 are at home in self-isolation.

We are working very closely with AHS and Public Health officials and are following pandemic outbreak protocols and infection control practices. All residents are monitored twice daily for symptoms.

All staff are screened at the beginning and end of their shifts and are being cohorted to work in assigned resident areas. All staff are required to wear an appropriate mask and eye protection in the home.

Residents of Jasper Place who consented to be vaccinated received their first dose on December 30 and 31 respectively. There are some residents who are waiting to be vaccinated as they had active cases of COVID-19 at the time of the initial vaccination. Vaccinations for staff began on December 22 and are ongoing.

Enhanced cleaning is being done at Jasper Place. We frequently disinfect high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms.

All residents are in isolation, cohorted to their designated home area. One on one recreation activities will continue, to maintain social engagement during this period of isolation.

We are regularly updating residents, their families and staff on the status of the outbreak. At the direction of Public Health, visits are restricted to designated family/support persons and essential visits for palliative residents.

We recognize how difficult these measures are for residents and their families. We appreciate the patience and understanding of families as we put these precautions in place for the safety of the residents.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
