

**Media Statement – Update on outbreak at South Terrace Continuing Care Centre – Edmonton
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

January 5, 2021

Alberta Health Services (AHS) has confirmed that 89 residents of South Terrace Continuing Care Centre in Edmonton have tested positive for COVID-19 since the outbreak began on October 22. There are currently no active cases of COVID-19 among residents in the home. We regret to confirm that 29 residents have passed away with COVID-19 during this outbreak. The South Terrace team offers our most sincere condolences to the families and friends of the people we have lost to the pandemic.

AHS also confirmed that since the outbreak began, 124 staff members have tested positive for COVID-19. All staff have recovered and returned to work.

We continue to work closely with Alberta Health Services officials to maintain pandemic outbreak protocols and infection control practices. At present, AHS is providing much appreciated remote support. We have added staff to assist with housekeeping, screening and home surveillance. We are working to hire additional staff through our regional and national recruitment teams. We are focused on providing the safest and best possible care to our residents during this difficult time.

All residents are monitored closely for symptoms twice daily and are tested if they present any potential signs or symptoms of the virus. All staff are screened at the beginning and end of their shifts. All staff are required to wear an appropriate mask and eye protection while in the home. We are doing enhanced cleaning at South Terrace, frequently disinfecting high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms.

All residents in the home have been asked to self-isolate in their rooms. Meals are served in resident rooms with supervision and assistance as required. To maintain stimulation and social engagement during this period of isolation, individual recreation activities continue.

We are regularly updating the residents, their families and the staff of the status of the outbreak. At the direction of Public Health, visits are restricted to designated family members/support persons and essential visitors for palliative residents.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
