

**Media Statement – COVID-19 Outbreak at Sumac Lodge Long Term Care Home – Sarnia
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

January 20, 2021

Lambton Public Health declared an outbreak of COVID-19 at Sumac Lodge Long Term Care Home in Sarnia on January 9 after one staff member tested positive for COVID-19 as a result of ongoing staff surveillance testing. The staff member is in self-isolation at home.

We are working very closely with Public Health officials and are following strict pandemic outbreak protocols and infection control practices. All residents are monitored twice daily for symptoms.

All staff are screened at the beginning and end of their shifts and are being cohorted to work in assigned resident areas. All staff are required to wear an appropriate mask and eye protection in the home.

Enhanced cleaning is being done at Sumac Lodge. We frequently disinfect high touch surfaces like handrails and doors, common areas and staff rooms.

At the direction of Public Health, all residents are to remain in their rooms at all times. Individual recreation activities will be continued to maintain social engagement during this period of isolation.

Sumac Lodge is ready to support the vaccination of our residents and staff as and when directed by Public Health. We have the necessary supplies and are obtaining consent from residents or their substitute decision makers in advance.

We have informed residents, their families and staff of the status of the outbreak. Visits from essential caregivers and essential visits for palliative residents have resumed as of this morning.

We recognize how difficult these measures are for residents and their families. We appreciate the patience and understanding of families as we put these precautions in place for the safety of the residents.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
