

**Media Statement – Outbreak at Miller Crossing Continuing Care Centre – Edmonton  
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

June 30, 2020

We have received confirmation from Alberta Health Services that a total of four staff members of Miller Crossing Continuing Care Centre in Edmonton have tested positive for COVID-19 since the beginning of the outbreak on June 9. All four staff members who tested positive have recovered.

We continue to work closely with Public Health officials and are following pandemic outbreak protocols and infection control practices. All residents are monitored closely for symptoms and all staff are screened at the beginning and end of their shifts. Staff providing care for residents in isolation wear appropriate personal protective equipment (PPE) which includes a mask, face shield, gloves and gown. All staff are required to wear a surgical mask in the residence at all times.

We continue to do enhanced cleaning at Miller Crossing, cleaning high touch surfaces like handrails and doors, resident rooms, common areas, and staff rooms more frequently.

We have adjusted our mealtime and recreation activities to promote physical distancing. All residents in isolation are served meals in their rooms. We have structured our dining service to maximize physical distancing during mealtime while allowing the staff to provide supervision and assistance as required. Group recreation programs have been replaced by one-on-one activities to maintain social engagement.

We have informed residents, their families and the staff of the status of the outbreak. We will reach out to all families of residents as often as possible to provide updates on their loved ones during this time of physical isolation.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
