

**Media Statement – COVID-19 Outbreak at Evergreen Retirement Residence – Calgary
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

May 3, 2021

Alberta Health Services declared an outbreak at Evergreen retirement residence after one staff member tested positive for COVID-19. The staff member is in self-isolation at home. Residents are being swabbed in consultation with Alberta Health Services.

We are working closely with Alberta Health Services officials to implement pandemic outbreak protocols and infection control practices. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Evergreen, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

To promote physical distancing, residents are being served meals in their rooms. Group recreation programming has been replaced by one-on-one activities with residents for social engagement.

All residents have received both dose of the vaccine. Staff vaccines are ongoing.

We have informed residents, their families and the staff of the status of the outbreak. Visits have been cancelled during the outbreak, except for designated essential visitors. We appreciate the patience and understanding of our residents and their families as we take these precautions. After the outbreak is resolved, we will notify families as soon as we are able to resume visits.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
