

**Media Statement – Update on McKenzie Towne Retirement Residence - Calgary
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

April 24, 2020

Since the outbreak was declared on April 3, we have received confirmation that two residents and one staff member of McKenzie Towne Retirement Residence in Calgary have tested positive for COVID-19. The residents remain in isolation in their suites. The staff member is in isolation at home.

We are working closely with public health officials and are following pandemic outbreak protocols and infection control practices. All residents are monitored closely for symptoms and all staff are screened at the beginning and end of their shifts. Staff providing care for residents in isolation (positive or symptomatic) wear appropriate personal protective equipment (PPE) which includes a mask, face shield, gloves and gown. All staff are required to wear a surgical mask in the residence at all times.

We continue to do enhanced cleaning at McKenzie Towne Retirement Residence, disinfecting high touch surfaces like handrails and doors, resident rooms, common areas, and staff rooms more frequently.

To promote physical distancing, residents are being served their meals in their suites. Group recreation programming has been replaced by one-on-one activities with residents for social engagement.

We continue to reach out to all families of residents as often as possible to provide updates on their loved ones during this time of physical isolation.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
