

**Media Statement – Outbreak declared at Prince of Wales Retirement Residence – Nepean
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

October 9, 2020

Ottawa Public Health (OPH) declared an outbreak of COVID-19 at Prince of Wales Retirement Residence in Nepean on October 9 after a staff member tested positive for COVID-19. The staff member is in self-isolation at home. All residents and staff will be swabbed at the direction of Ottawa Public Health.

We are working very closely with OPH officials and are following strict pandemic outbreak protocols and infection control practices. All residents are monitored twice daily for symptoms.

All staff are screened at the beginning and end of their shifts and are being cohorted to work in assigned resident areas. All staff are required to wear a surgical mask and eye protection in the home.

Enhanced cleaning is being done at Prince of Wales. We are disinfecting high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms frequently.

At the direction of Ottawa Public Health, all residents are to remain in their rooms at all times and will receive their meals in their suites. One on one recreation activities will be continued to maintain social engagement during this period of isolation.

We have informed the residents, their families and the staff of the status of the outbreak. At the direction of OPH, all indoor and outdoor visits are cancelled temporarily. Essential caregiver visits and essential visits for palliative residents will be permitted.

We recognize how difficult these measures are for residents and their families and we appreciate the patience and understanding of families as we put these precautions in place for the safety of the residents.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
