

**Media Statement – COVID-19 outbreak at Winbourne Park Long Term Care Home – Ajax
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

October 11, 2020

We received confirmation from Durham Region Public Health on October 10 that an outbreak has been declared at Winbourne Park Long Term Care Home in Ajax after one staff member tested positive for COVID-19 as part of ongoing staff surveillance testing. The employee is at home in self-isolation. No residents have tested positive or have symptoms. Note also that this outbreak does not affect Revera Westney Gardens Retirement Residence, which is located next to Winbourne Park.

We are working closely with Durham Region Public Health officials and are following pandemic outbreak protocols and infection control practices. All residents are monitored closely for symptoms twice daily. All staff are screened at the beginning and end of their shifts. All staff are required to wear a surgical mask and eye protection in the home.

We are doing enhanced cleaning at Winbourne Park, disinfecting high touch surfaces like handrails and doors, resident rooms, common areas and staff rooms more frequently.

Residents will receive meals in their rooms while allowing staff to provide supervision and assistance as required. Group recreation programs have been replaced by activities contained to each floor to maintain social engagement.

We have informed residents, their families and the staff of the status of the outbreak. Per Public Health direction, all indoor and outdoor visits have been cancelled. Essential caregivers and essential visitors to palliative residents will continue.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our long term care homes and retirement residences.
