

**Media Statement – COVID-19 Outbreak at Marian Chateau Retirement Residence – Regina  
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

October 4, 2021

Public Health has declared an outbreak at Marian Chateau retirement residence after seven residents tested positive for COVID-19. The residents are in self-isolation in their suite.

We regret to inform we have had one resident pass away with COVID-19. The team at Marian Chateau offers its most sincere condolences to the family and friends of the resident who passed away.

We are continuing to work closely with Public Health officials to implement pandemic outbreak protocols and infection control practices. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Marian Chateau, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

To promote physical distancing, residents are being served meals in their rooms. Group recreation programming has been replaced by one-on-one activities with residents for social engagement.

Almost all residents and staff have received their second dose of vaccine.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
