

**Media Statement – Update on outbreak at Marian Chateau Retirement Residence – Regina
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

October 28, 2021

Public Health declared a COVID-19 outbreak at Marian Chateau retirement residence on October 4. To date, nine residents have tested positive for COVID-19. We regret to report that two residents have passed away with COVID-19. The team at Marian Chateau offers its most sincere condolences to the family and friends of the residents who passed away. All of other cases are now considered resolved.

We are continuing to work closely with Public Health officials to implement pandemic outbreak protocols and infection control practices. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask and eye protection in the residence at all times.

We are doing enhanced cleaning at Marian Chateau, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

To promote physical distancing, residents are being served meals in their rooms. Group recreation programming has been replaced by one-on-one activities with residents for social engagement.

We are keeping residents, families and staff updated on the status of the outbreak.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
