

**Media Statement – Update on outbreak at The Edgemont Retirement Residence – Calgary  
- Dr. Rhonda Collins, Chief Medical Officer, Revera**

October 5, 2021

Since Alberta Health Services (AHS) declared an outbreak of COVID-19 at The Edgemont Retirement Residence in Calgary on September 11, we have received confirmation that eight residents and four staff members have tested positive for COVID-19. Since the outbreak began, seven resident and four staff cases have resolved.

We continue to work closely with AHS officials to implement pandemic outbreak protocols and infection control practices. Residents are monitored for symptoms twice daily. All staff are screened at the beginning and end of their shifts and are required to wear a surgical mask in the residence at all times.

We are doing enhanced cleaning at The Edgemont, disinfecting high touch surfaces like handrails and doors, common areas and staff rooms frequently.

Almost all the residents and staff of The Edgemont are fully vaccinated and most of the residents have also received their third dose.

We have informed residents, their families and the staff of the status of the outbreak.

Revera continues to do everything we can to keep our residents and employees safe as we work to prevent the spread of COVID-19 at our retirement residences and long term care homes.
